## HONOR MARKS FOR FIRST QUARTER

High School pupils who attained an average of 90 or more in all their subjects are:

Lillian Howe 92  
Hazel Thompson 91  
Iona Parker 90

## HONOR MARKS IN QUARTERLY TESTS:

High School pupils who attained a grade of 90 or more:

Algebra--Maira Ames, Grace Eddy, Dorothy Fodder, William: Com.  
Arithmetic--Harry Gilliess, Mary Johnson, Gertrude Ovitt, Louise Palmer, Alice Tubbs, Beatrice Tubbs: Bookkeeping 1--Lillian Howe: Bookkeeping 11--Hazel Thompson, Helen Thompson: El. Business Training--Iona Parker, Hazel Thompson, Helen Thompson: Typewriting 1--Paul Ives, Iona Parker, Helen Wright: Biology--Grace Eddy, Earl Gilbert, Frances Gilbert, Hilda Lesperance, Edward Shaw, Blanche Smead, Flora Stewart, Edna Varney: Physical Geography--Lillian Howe: English 1--Williard Brown, Hilda Lesperance, Iona Parker, Marjorie Scofield, Flora Stewart: English 11--Dorothy, Iona Parker, Dorothy Redlien, Helen Wright: English 111--Lillian Howe, Hazel Thompson: French 1--William Johnson: History A--Gerald Roider, Chester Osgood: History C--Averill Perkins, Gerald Roider.

## PERFECT ATTENDANCE

### First Quarter

#### High School

Willard Brown, Paul Bulgar, Earl Gilbert, Harry Gilliess, William Harvey, Chester Osgood, Averill Perkins, Taylor Smead, Charles Smith, Wilbur Stokes, Eugene Stone, Frances Gilbert, Hilda Lesperance Louise Palmer, Iona Parker, Dorothy Redlien, Marjorie Visscher, Mary White, Lillian St. John, Helen Wright.

#### 7th and 8th Grades

Charles Traver, Cloyce Traver, Ethel Gilbert, Geneva Hagadorn, Ruth St. John, Patricia Visscher.

#### 5th and 6th Grades

Laura Brown, Ruth Hall, Louise King, Grace Scoville, Helen St. John, John Beattie, Walter Crannell, Amherst Daniels, John Dawes, Mildred Champagne, Laysel Ross.

#### 3rd and 4th Grades

Vernon Dunkley, Ernest Gilbert, Cecil Hayes, Cortland Ross, Esther Brown, Marion Hall, Ruth Hagadorn, Mary Zullo.

#### 2nd Grade

Nelson Dunkley, Robert Evens, Scott Hayes, Albert Heipt, Jerry Scoville, Donald Smith, Jeannette, Stanton.

#### 1st Grade

Billy Redlien, Thomas Triddy, Bill St. John, Jackie Tunney, Mary Crannell, Janet Goodness, Amelia Zullo.

## SUCCESSOGRAMS

It's the trained man who lands the salary raise.

You can increase your income by hard study.

Home study pays large dividends.

Salary raises are not given, - they are EARNED.

## THE VALUE OF HIGH SCHOOL ATHLETICS

The public does not realize that High School athletics have great value. The school spirit must be kept kindled and athletics do more along this line than any two or three other activities.

Average boys and girls of high school age demand interesting amusements and, if these are furnished by the school in the form of athletics, it is a very good reason for going there. To participate in High School athletics the standings of the students must be above passing. This sometimes helps in school work and better attendance.

Next, let us mention the values to the players themselves. It is a recognized fact that habits adopted during the first twenty years of a person's life are the most lasting ones. Players learn many lessons in sportsmanship by experience.

Mental and physical alertness is another important value which one gains in athletic activity. It develops watchfulness and quick response as a part of the process of teamwork and effective co-operation. Alertness is also developed through the greater physical agility and strength incident to athletic activity. *By Lillian Howe.*

## BASKETBALL SCHEDULE, 1928-29

### Home Games:

Lake George on Nov. 23  
Fort Ann Alumni, Nov. 30  
Round Lake on January 11  
So. Glens Falls on Jan. 25  
Warrensburgh on Feb. 1  
Fort Ann on February 22  
Corinth on March 15

### Out of Town Games:

So. Glens Falls on Dec. 8  
Round Lake on Dec. 15  
Lake George on January 18  
Fort Ann on February 8  
Corinth on March 1  
Warrensburgh on March 8

## GIRLS' BASKETBALL NEWS

(By Marjorie Visscher,  
Sophomore Reporter)

The girls' basketball practices have taken on a different outlook this year. About twenty candidates invade Taylor's Hall each practice night. In other years it has been difficult to get ten girls together for practice. Last year it was considered that the team did well with all its hindrances, but now it is hoped for even better results.

This year the teams have their own managers. The girls elected Marjorie Visscher. The managers assist Mr. Chester, our coach, in the performance of their various duties..

We shall greatly miss the refereeing of Mr. Taylor. This year our home games will be refereed by Homan and Reed of Glens Falls.

We expect to have at least twelve exciting games this year. Our opponents are Lake George, Corinth, South Glens Falls, Fort Ann, Warrensburgh and Glens Falls Academy. Round Lake Union School is the only school in the Adirondack League that does not have a girls' team this year. We play Glens Falls Academy girls when Round Lake appears on our schedule.

NEXT TO TAYLOR'S

To the Boys and Girls of the Hadley-Luzerne High School:

(An Open Letter from the Principal)

Have you never wondered whether there is any law governing your success in school? Yes, there is such a law and it may be stated simply, as follows: HAVE FAITH IN YOUR ABILITY TO MASTER ANY SUBJECT AND YOU WILL MASTER IT.

No matter how good a mind you have, if you persist in saying "I can't", you will most certainly fail; no matter how dull you may be, if you persist in saying "I can" and ACTING AS IF YOU COULD, you will most certainly succeed.

Do you say that you do not like a certain subject? Then put more time on it in order to master it. You constantly tell yourself that you "can't do it", you work at it half-heartedly and carelessly, you half get your daily lessons and at the end of the year you fail in it. Keep telling yourself: "I can do it, I CAN do it and I WILL DO IT"; then you will take the time necessary to the mastery of each lesson and be encouraged with the achievement that makes for success in the final examination.

Please, PLEASE, DO NOT SUGGEST OR ADMIT TO YOURSELF, EVER, THAT YOU ARE A FAILURE. If you think you are a failure you can not succeed. That you should always think in terms of success is the very first step toward success.

But there is no success without WORK. Don't say "I can't" and then try to prove it to yourself and others by refusing to work. Say "I can and I WILL" and prove it to yourself and others by working.

If you are not willing to master your lessons in school, who will be to blame for your failure? Remember that FAILURES ARE MADE AND NOT BORN. The same opportunity for education is open to each and all alike. Let no boy or girl blame anybody but himself or her-

self if he or she fails to work hard enough to obtain a good education.

I have said that faith in yourself promotes success through work, but there is still another value of such faith. If you have faith in your ability you will inspire the confidence of others. How can you expect others to have faith in you unless you have faith in yourself?

There is no one factor that has greater power to awaken the confidence of others than education. Without education you can not hope to win. Life is a constant struggle to get a living and to have more of the goods we desire. Only a very few can have these goods without working for others. It should, therefore, become the study of your life to find out how you can inspire the greatest confidence in others. In general, the one word, EDUCATION, will answer your question. Get education and you will command the recognition and confidence of those on whom you must depend for employment.

There are thousands of young men and women who are getting education today and there are not good jobs enough to go around. Among the great employers of labor, the slogan seems to be: "Educate yourselves or we can not employ you; learn to do something very well or do not expect promotion and success".

The basis for later success is being laid now, every day, when your faith in your ability drives you on to the mastery of your daily lessons and makes you sure of reaching the goal of your deepest ambition. Remember: IT'S TRAINING, NOT CHANCE, THAT INSURES YOUR SUCCESS.

BASKETBALL

Boys: Hadley-Luzerne High 31  
 Lake George High 23

Girls: Hadley-Luzerne High 12  
 Lake George High 16

Boys' and girls' fives came from Lake George last Friday night to play our high school teams on Taylor's court. Our girls played a hard game but were unable to overcome Lake George's early lead and the game ended with the count 16 to 12 in favor of the visitors. In the boys' game the score stood at 9 to 5 at the end of the first quarter in favor of Lake George and 16 to 15 at the end of the half, the visitors shading the locals by one point. During the third quarter our team pulled away and the quarter ended with the score 23 to 19. Fast playing during the last period still further increased our lead and the score stood at 31 to 23 at the close of the game. Careful analysis of the score at the different stages of the game seems to point to the conclusion that our team was in fine physical condition and could endure a fast pace. A good crowd came out to witness this first League contest of the year. The game was rough at times. Holland, of the Glens Falls Y.M.C.A. was the referee.

A. Miss Wilson
- Q. Why do we "toe the mark"?  
A. L. F. Perkins.

## OUR ADVERTISERS

The financial status of a publication is often judged by the number of its advertisers. This judgment of the buying public is quite correct because advertisers would not presumably continue to patronize a paper unless they had practical evidence that it paid to advertise. The success of our new publication is, therefore, somewhat dependent upon the recognition of profit by our advertisers.

It may be true that it pays the business man to keep his name before the public by advertising, even though his customers fail to mention the fact that they saw the advertisement. It is, however, the ambition of "School Days" to furnish an effective medium for an increase in sales that may be clearly recognized by our advertisers as profitable to them.

The business men of Hadley and Luzerne have been very generous in utilizing space in this first edition of "School Days". We wish to be found worthy of their future confidence and patronage and we, therefore, urge our readers not to forget to give us a helping hand by mentioning this paper when buying of advertisers. We also request our advertisers to look patiently for evidences of benefits that are clearly the results of advertising in "School Days".

## BOYS' SPORTS

By Charles Smith, Soph. Reporter

The basketball season has opened and our prospects appear to be bright. A squad of about 25 boys has turned out for practice this year. We have already had two fine practice games with the Indian A. C. of Corinth. We lost the first and won the second of these games.

Our League schedule opened Friday, Nov. 23rd. with Lake George High on our home court. The final score was 31 to 23 in favor of our team. We think that the team will continue to give a good account of itself, as we have four veterans from last year's team and a good squad of reserves with a year of experience behind them. The four

veterans from last year are W. Visscher, C. Traver, C. Ramsey, and H. Crannell. A. Perkins, the fifth member of the regulars, is a junior who entered this school last fall. We hope that the team will have the hearty support of the local fans.

\*\*\*\*\*

Grade 2 enjoyed a Halloween party on Wednesday afternoon, Oct. 31. The room was gaily decorated. Games were played and doughnuts and milk were served.

## EDITORIAL NOTES

We trust that the readers of "SCHOOL DAYS" will refrain from a too critical judgment of its obvious imperfections. We hope to improve the form and content of this paper as experience shall show us the way. We realize that professionals would arrange the materials differently but we have done our humble best.

\*\*\*\*\*

We take this opportunity to urge the teachers and pupils of the grades and high school to send us more contributions for the December issue. It is with regret that we can not print everything submitted; but, with more material to choose from, the better we can make "SCHOOL DAYS".

\*\*\*\*\*

In the name of loyalty to our school we ask of the pupils and parents their greatest support. We want "SCHOOL DAYS" to grow and become a fixed institution in this school, even after all of the members of the present staff have left. If we can accomplish this we feel that our work has not been without enduring value.

*Lillian Howe* Editor

## THE MEANING OF STUDY

Study is the great highway to success. We must not think of study as simply poring over books. Books, to be sure, are an important factor in study. Works of history, biography and other branches of learning help us all. Good books will widen the outlook and lift up the standard of life. They are the keys to wisdom. But study also includes work of any kind directed toward certain ends. The ends of study may be stated briefly as gaining knowledge, using knowledge and skill in creating new things and acquiring a way of looking at life so as to be able to appreciate the world in which we live and to take pleasure in the glorious spectacles of Nature and the amazing contributions of the human spirit throughout the ages.

You are studying whenever you strive to gain power to do things. You are studying every time you make something, - a picture, a map, a song, or a story. An effort to appreciate the meaning of some great story, play or picture is study. We often say that some great author or painter or sculptor is a life-long student. Even the business man, the farmer, the manufacturer, the railroad manager, the salesman, the industrial work-

LET US DEMONSTRATE

MAIN STREET HADLEY, N.Y.

THE MEANING OF STUDY  
(concluded)

er and everyone who obtains a livelihood must study constantly the changes incidental to life.

You will find that every great man has to study. Let us take Thomas Edison for an example. In his early boyhood he spent his spare hours in reading good books and in boyish experiments with machinery. He was only a little newsboy at first but he kept on looking and working for something higher. Study made him the great American electrician and inventor as we know him today. We observe the same thing to be true in the lives of other great men, such as Darwin, Fabre, Pasteur, Fulton and Mill. Study is the thing that listed them among the noted men of the world.

When we pause to think what study really means we all want to study. It is a privilege we have and no one can deprive us of it. Therefore, WHY NOT STUDY?

By Kathryn Williams

\*\*\*\*\*

Gladys Gilliess sent this in:

Sally: "I think you would be happier if you married a man with less money".

Anne: "Well, don't worry, He'll soon have less".

BASKETBALL ANNOUNCEMENTS

Morgan E. Chester, Manager and Coach of the Basketball Teams, announces that the prices of admission to home games this year will be as follows: 35 cents to adults and 25 cents to school children. It should be recalled that last year the prices were 50 cents and 35 cents. We hope that this difference in price will bring about a considerably greater public support of inter-scholastic basketball.

Tickets have been printed and will be sold a few days before each home game. It is hoped that patrons of the game in this community will purchase these tickets from the pupils. The use of the tickets should prove of greater service to the fans and of convenience to the management.

On Friday night, November 30, Frank Paige brings his Fort Ann Alumni team to Luzerne to play our 'varsity boys. We are confident that the fans will witness an excellent brand of basketball in this extra-league clash. The Fort Ann team is made up principally of last year's players and, though they may not have played together this year, our boys will have to step lively to beat them. Admission, 25 ¢ to all.

Lillian Howe is captain of the girls' 'varsity five and Howard Crannell of the boys'.
