Dedication

With graceful appreciation the staff of the 1974 Hi-Lights dedicates this book to four charming women who have given much of their time and themselves to us.

Mrs. Comeau was instrumental in giving advice on the prom and more importantly being there whenever we needed to talk over any problems.

Mrs. Rollman has been with us through the years helping in numerous activities. She's been painting for the prom, helping at the senior graduation reception, chaperoning. Thanks for being an interested parent and a most interesting person.

Mrs. Barbara Rollman

Mrs. Jacqueline Comeau

Mrs. White is always there too! She's been right with Mrs. Rollman on all the above... plus making some of the best cookies we've had! Her constant help along with Mrs. LeBarron in the cafeteria and media center have made H-L a better place.

*Welcome
to a Look At
a Year of Our
Life 1973-74.*

In the pages that follow you will find a memory book; a review of our large family at Hadley Luzerne Central Schools for 1973-74.

Actually it is a look at our community too, not just the school. The faces you see reflect the homelife of the students, the involvement of parents and interested citizens in activities at our classrooms and extra curricular affairs, the exciting times in various classes and activities.

We hope you can retrace your steps for the year as you look at the pictures that made that year.

Life in the primary grades is only the beginning of our school life. A very important beginning it is as reading and writing become the crux upon which our education will be built. Getting to know our neighbors, here in the school hallway as well as literally around the globe begins with the day by day contacts at school.

With the advent of the Stuart M. Townsend Middle School the fourth grade is the "last" elementary grade in the central school building now.

Students in the fourth grade enjoy being the "oldest" of the "youngest" in the building. They find time to occasionally reflect upon what lies ahead, . . . but mostly just enjoy the excitement of many activities and projects in the fourth grade.

Seventeen students were inducted into the National Honor Society at ceremonies in the auditorium January 17. From the senior class Mary Duell, Denise Hastings and Leonard Tarricone were inducted. Juniors inducted were William Corbett, Sandra Pidgeon and James Shiel. Eleven members of the sophomore class inducted were Karen Bourdeau, Diane Doubleday, Vernon Dunkley, Dorothy Stone, Audrey Wisell, Nanette Wright, Andrew Young and Patricia Zimmermann.

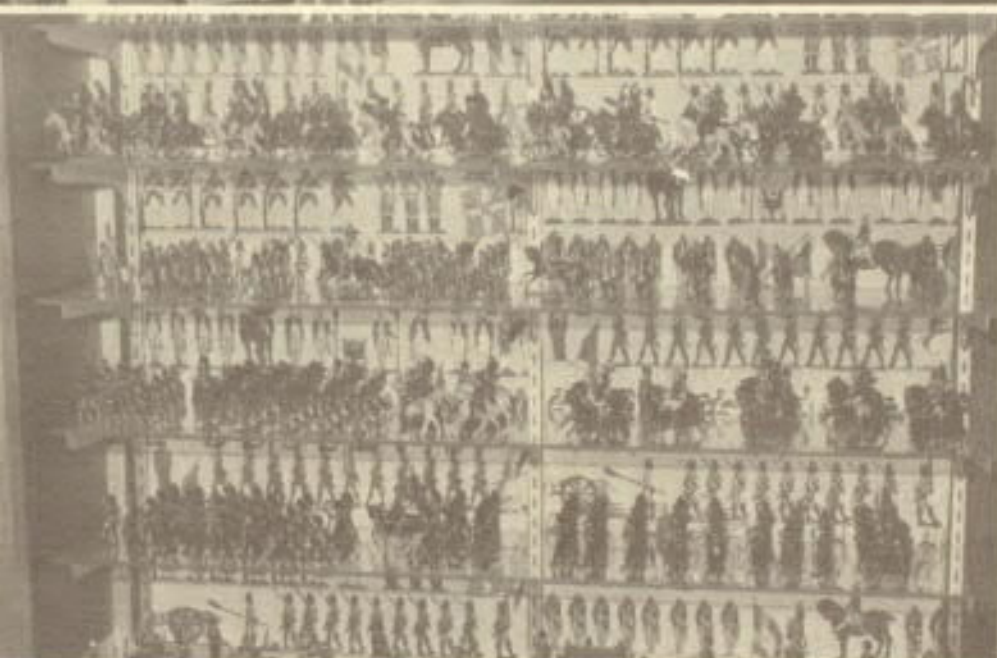

Tom Zimmerman explains the symbol of the Honor Society.

Perhaps more than in any other recent times parents became involved in daily classroom activities. Mr. John Eichhorn, for instance, spent hours setting up several display case exhibits in the Middle School. He is seen left standing next to a display evolving about the Civil War. Below is seen some of the more than 500 soldiers and warriors in miniature that he had on exhibit.

In the elementary school parents and interested members of the Mothers Club helped with the reading program for youngsters in grades 1-4. Mrs. Lois Root also had library aid help on a voluntary basis from parents and other citizens of the school community.

The third graders had a parent spent some time teaching them basic conversational French.

George Doherty and Guy Doubleday were New York State Regents Scholarship winners this year.

Alternates to the scholarships are Francis Bourdeau, Kevin Williams and Thomas Zimmermann.

George plans to attend Albany Pharmacy College and Guy plans to attend Adirondack Community College.

1972-73 Spring Sports

Although a yearbook is distributed in the Spring of the year the deadline for materials to be in that book is the February of the year it is published. Thus events that occur after February 1 are not included. We are proud of our tennis and baseball teams and therefore show who was on those teams a year ago since they could not be included in last year's book and this year's (73-74) Spring teams could not be included in this book!

THE TENNIS TEAM ABOVE did us proud. In the FRONT ROW, LEFT TO RIGHT, Bob Mahr, Jill White, Priscilla Newton, Shawn Washburn, Greg Vanderzell, Coach Jack Abbott; SECOND ROW, Joe Neville, Scott Burdick, Steve McNeil, Tom Zimmermann.

BELÓW the baseball team that brought thrills and glory to the diamond include FIRST ROW, LEFT TO RIGHT, Claude Wright, Mike Bourdeau, Phil Miraglia, Fran Bourdeau; 2nd ROW, Bob Washburn, Curt Lemelin, Len Tarricone, Kevin Williams, D.J. LEFT, Mike Hathaway watches Ricky Hayes lift the weights.

RIGHT, Kim Denton holds Teresa Wilson atop Sandy Pidgeon.

Throughout the year students take physical education every other day at the high school level. Adeptness in many areas of physical well being takes place. Perhaps the most enjoyable unit is gymnastics ... a chance to tone up the body in many ways.

LEFT, Dennis French flies across the mat.

RIGHT, Barbara Locke bounces high.

LEFT, Jim Meyers swings.

Junior Prom

King and queen of the prom of 1973 were John Golden and Lori Siudy.

RIGHT, the king and queen of the prom of 1972 were Jill White and Justin Hoffman. BELOW, Chris Martell chats with George Doherty and Frances Milmore.

Socially the junior prom has to rank as the best dance of any year.

Getting dressed up, special flowers, dinner out before the dance, transformation into another world at the dance.

The 1973 prom had as its theme Midnight Sunset.

Music by the Preludes.

The court of honor included Pam Rollman, Donna Gogan, Michele Trotter and Bonnie Allen. Boys were Leon Chase, George Doherty, Mike White, and D.J. White.

Checking The IBM Grade

with what you believe the grade should be takes place several times a year for high school students. Of course the activity of school lunches is a daily affair, a time for good food, good times, good change of pace from classes.

The atypical day seemed to blossom as much this year as the typical days. However it was not everyday that the Middle School had a visitor with his pet mountain lion (LEFT).

A Speech seminar class was not held in a classroom...but in an office, sharing their words of wisdom with projectors, lamps, tv cameras, wigs for the school play etc. (LEFT).

Mr. Taft gets pointers about bowling scores (ABOVE RIGHT) and that is unusual since normally he'd be collecting strikes. And certainly untypical is the "crew" (RIGHT) staying inside during lunch.

We feel we should end this journey of the school year with a look at a very typical everyday situation... such as the three minute crunch between classes, a chance to visit lockers... or to catch up on the latest "news" before going to the next class or shooting basketball shots during lunch period or just "enjoying" school, friends, life!

It is impossible in the number of pages we have available to capture anywhere near all the events of the school year.

We hope with this memory book the few we have gotten will spark off warm thoughts of the 1973-74 school year for many years to come.

TREES ARE AMERICA'S RENEWABLE RESOURCE

Truckloads of America's renewable resources are shown at International Paper Company's Hudson River Mill, Corinth, N.Y. Unlike minerals, oil, etc., which when depleted are not replaceable, reforestation programs, such as IP's, assures America of a continuing supply of trees not only for paper but for the many other paper products which make up the 611 pounds of paper and paper products used per person annually.
